

Israel Adefidipe

Frontend Developer

israeladefidipe@gmail.com | +23480139055161 | LinkedIn | Github | Twitter | Portfolio

PROFILE

Self-taught Front-end developer and web3 enthusiast with 2+ years of experience providing impactful web solutions for diverse industry organizations. Skilled in designing, developing, and testing multiple web-based applications incorporating a range of front-end technologies.

SKILLS

Frontend

HTML, CSS, SCSS/SASS, JavaScript (ES6+), React, Redux, Next.js, Mocha, Styled Components, Material UI, TypeScript

Blockchain

Web3.js, Solidity, Infura, Mocha, Truffle, Ganache CLI & Hardhat

Backend

Node.js, Express.js, MongoDB, Restful API, JWT

Tool

Git, GitHub, GitHub Actions, Webpack, Firebase, Figma, Adobe XD, Linux, AWS, Postman

PROFESSIONAL EXPERIENCE

Independent Frontend Developer

11/2020 – present

- Designed and programmed to pixel-perfection both client-based and personal projects, with HTML, CSS/SASS, Vanilla JavaScript, React, Next.js and Typescript.
- Utilized Git and GitHub for version control, continuous integration, and managing projects.
- Prepared and audited project proposals and budgets for freelance clients.

Frontend Developer, Trade Treegar

03/2022 – 04/2022

Remote

- Built the company's landing/onboarding page using:
 - React, next.js to build webpages and all functionalities
 - Styled-components for styling.
 - Github actions and Azure for continuous delivery and deployment.
 - Figma for collaboration with the design team and design handoff

Frontend Developer, Webstacky

07/2021 – 02/2022

Remote

- Collaborated with a team of developers to completely recreate the agency's website with the Next.js framework. I adapted to the shift in technologies, learned them, and became a valued member of the team, solving problems and creating working solutions for the needs of the business.
- Built, tested, managed, and improved the front-end interfaces of decentralized/non-decentralized web applications
- Engineered and integrated frontend interfaces with smart contracts, utilizing technologies such as web3.js and Mocha/hardhat for testing and integrating smart contracts with frontend implementations.

Frontend Developer (Intern), Zuri Team, Inc [↗](#)

03/2021 – 07/2021

Remote

- Managed a team of over 20 members in a two-week hackathon, held during the early stages of the internship. We were able to deliver 90% of the competition requirements.
- Worked in a tech team for the project phase, where I served as the Lead frontend developer.
- Managed the project's codebase, and GitHub activities. I also mentored colleagues on code best practices, Git, and GitHub usage
- Communicated and worked closely with the design team to ensure that UI designs are accessible, by lending my design experience.

PROJECTS

Invoice Tracking App, An CRUD invoice tracking web application [↗](#)

- Frontend stack: React, Next.js, Typescript
- Tools/Libraries: Styled Components, Redux, Framer-motion, Formik, Figma, Firebase
- Deployment: Git, Netlify
- Repo Link [↗](#)
